

## **Protocol for Breastfeeding**

- **The Visitor requesting to breastfeed their child will notify a visiting room officer**
- **The visiting room officer will check to ensure that the room is available.**
  - **If the room is unoccupied, the officer will retrieve the keys to allow the visitor access into the room.**
    - **The window covering will be placed over the door window when the room is occupied.**
    - **The visitor may move the wall barrier to give themselves more privacy with their child.**
    - **When finished, the visitor will notify the officer.**
    - **The officer will search the room and secure the area.**
  - **If the room is occupied, the officer will inform the visitor that the room is not available presently and they will need to wait until it is vacated.**
